Habitat for Humanity® of East Jefferson County

Landes Terrace

Project Overview: Habitat for Humanity of East Jefferson County (HFHEJC) is developing a community of 14 homes at Landes Terrace. The Habitat for Humanity Homeownership Program may not be the best fit for everyone, so please review all information provided to ensure our home meets your need. As part of the Homeownership Program, participants will be required to agree to certain conditions and covenants, as well as participate in Homeowners Associations if present. All homes will be part of our Permanent Affordability Program, which includes an annual value appreciation cap of 1.5% on improvements built on land leased and owned by HFHEJC in perpetuity.
